Hi Bridget

Page 19 of attached quote contains the sizes of both solar and battery – Council agreed that we want SID supplied by SWARCO if it meets your guidelines

Kind Regards

Kath

Subject: Meeting with Bridget DCC re SID and average speed cameras

Hi Kath

Had a good meeting with Bridget from DCC on Tuesday. Tim is going to send you and update by email but if you don't get one let me know and I'll fill you in.

Headlines are:

- identified two possible spots for SID and need to speak to search to get their thoughts on location.
- Need to double check the dimensions of our chosen SID meet DCC guidelines (I know you have already mentioned this)
- Need to fill in the DCC application form
- Need to speak to neighbours who live close to SID
- Bridget will pay for the post.

Average speed cameras in stretton were a flat no. She said there is very little we could do in terms of public consultation to change that. There are roads where the need is greater. She said the police have been running a new mobile speed check thing which might be good for up there and she can provide more details.

Thanks

Rosie
