Hi kath the quote to remove Ivy, do the bracket and replace section at front is £319  
Did you receive the invoice.  
Thanks Lawrence

The front gutter wants totally replacing as it dosnt clip together properly. There is a bracket needs going on round the back and all the ivy needs removing off the stone work and roof as it's started moving under the roof slates into the roof and as it grows will cause all sorts of problems thanks Lawrence
